ON-THE-FARM DEMONSTRATIONS

The Objective - to encourage and assist members to cut production costs and improve the efficiency of their operations.

United Farmers of Alberta is determined to serve their members as efficiently as possible. With this in mind, on-the-farm demonstrations of mechanical cattle handling equipment will take place in early October. As well as personnel from UFA’s Farm Supply Centers and Farmstead Development Department, in attendance will be Merle Webster of W.W. Manufacturing. His short talk on “practical cattle handling principles” will be directed towards basic “cattle psychology” rather than his own equipment lines.

We are sure you’ll find his suggestions, which can be adapted to the small or large operation, helpful and he will be more than happy to talk with you about your specific problems.

You’ll see cattle handling systems in operation that have an almost unlimited versatility and are interchangeable with and complementary to wooden systems. Generally, United Farmers will demonstrate how some of the back breaking labor involved in livestock care can be lightened for you and allow more time for management.

So plan to attend these demonstrations. Regardless of whether you have a few head of cattle, a small or large cow-calf or feedlot operation, we’re sure you’ll find ways and means to cut production costs and improve efficiency from these on-the-farm demonstrations.

Members will be notified of the specific date, time and location of the first of the series of demonstrations to be held early in October in the Claresholm, Olds and Edmonton areas. In the spring, more on-the-farm demonstrations will be held throughout Alberta.
NEW DELEGATES

Peter R. Samaroden
Mossleigh, Alberta
Delegate, Sub-district #35

Mr. Samaroden’s mixed farm is comprised of a cow-calf operation and the raising of grain. Cattle have always been the major enterprise, however, Mr. Samaroden believes this year it will be half grain and half cattle. Over the years Mr. Samaroden has sold about 45 Polled Herefords to Russia and about seven to Czechoslovakia.

Born and raised on the family farm, Mr. Samaroden bought his present farm in 1955. The sandstone house, built by Chris Bartsch, is located on this farm and visitors often come to see this bit of Alberta’s history.

For 13 years Mr. Samaroden was a 4-H leader. At first he worked with the Mossleigh 4-H Beef Club and then with 4-H Multi-Projects. The entire Samaroden family has belonged to and been active in 4-H work.

Mr. Samaroden is a member of Unifarm, the local community club, the Arrowwood Co-op Association, and is chairman of the local UGG at Arrowwood.

He and his wife, Laura, have 5 children, William, Olga-Lou (Mrs. E. Janzen), Walter, Connie and David. Mrs. Samaroden has worked closely with her husband in their business.

Fishing and woodworking are hobbies that Mr. Samaroden enjoys, however, the activities of both Mr. and Mrs. Samaroden have centered mostly around their family.

Irvin A. Kopp
Culp, Alberta
Delegate, Sub-district #4

Raised on the farm, Mr. Kopp took over the family farm in 1952. He was born at Wayne, Alberta and attended Culp Rural School.

Mr. Kopp has been involved in many community and agricultural organizations and at the present time is a board member of the Culp Community Hall Association, a member of the Agricultural Development Committee for the municipal district of Smoky River #130, secretary of the Girouxville West Rural Electrification Association and an Associate Unifarm director of district #22.

Mr. Kopp and his wife, Lena, have three children, Marlene (Mrs. J. Gagnon), Gerald and Beverley.

Mr. Kopp replaces Mr. Guy Turcotte, who was elected a director of United Farmers of Alberta, as the delegate in Sub-district #4.

For hobbies he enjoys curling, coin collecting and reading.
Robert Gardiner, Excel - 1931 - 1945

Robert Gardiner immigrated from Scotland to Indianhead, Saskatchewan. He came to Alberta three years later and settled at Excel, Alberta, where he grew grain and raised purebred horses. Two months after his arrival, he joined United Farmers of Alberta. In 1914 he was elected a councillor and reeve and was later elected vice-president of the Alberta Association of Municipal Districts.

In the federal election of 1921, he scored an overwhelming victory in the Medicine Hat federal riding. He was re-elected in 1925 and returned in 1930 by acclamation. He was federal leader of the UFA Ginger group in the House of Commons and met his first political defeat in 1935. Mr. Gardiner became nationally known in 1929 for his drive for federal investigation of circumstances surrounding the Beauharnois Power Corporation. He also fought for retention of the Crows Nest Pass agreement. Robert Gardiner remained as president of United Farmers of Alberta until 1945.

George E. Church - 1945 - 1961

Elected president in 1945, Mr. George Church's primary interest was farm organization and it was in the field of counsel and advice that he made his greatest contribution. He came to Alberta from Ottawa. A dairy farmer and a lover of horses, Mr. Church showed Percherons, which won prizes at most major shows across Canada. His activities were extensive and he was a member of the Calgary Rotary Club, the Shriner's, the Ranchmen's Club and a director of the Calgary Exhibition and Stampede, the Canadian Federation of Agriculture, the Alberta Gas Trunk Line, Canadian Hydrocarbons Limited and the Central Alberta Dairy Pool. In addition, he was vice-president of the Alberta Federation of Agriculture, the Percheron Association and chairman of the Alberta Hall Board.

In 1948 Mr. Church made the following statement at the Annual Meeting.

"I have been closely associated with the social and educational activities of United Farmers of Alberta as well as with its co-operative branch. It is my deep conviction that a commercial undertaking of such large proportions should be organized on strictly commercial lines in keeping with recognized co-operative principles."

Mr. Church spoke of the expansion and healthy growth of the co-operative during the years and paid tribute to the loyal support accorded it by the farmers of the province. At that meeting, it was resolved that the separation of the educational from the co-operative branch of the association be approved. It was also resolved that the educational function heretofore carried out by the association be carried on as a non-incorporated association on an annual membership basis. Power to change the name had been authorized by statute in 1946. To bring the change into effect required only the approval of the convention. Approval and ratification was given without dissent and the co-operative branch of the organization became known as United Farmers of Alberta Co-operative Limited. Mr. Church had served on the board of United Farmers of Alberta from 1929 to 1945 and been the president from 1945 to 1948. When the Alberta Farmers Union and United Farmers of Alberta amalgamated in 1948 and became the Farmers Union of Alberta, George Church continued as president of UFA Co-operative Limited until his death in 1961.
UNITED FARMERS OF ALBERTA
CO-OPERATIVE LIMITED

Jake Frey - 1961 - 1963
The next president of UFA Co-operative was Jake Frey of Arneson. Mr. Frey served as president in 1962 and 1963. Born in Kitchener, Ontario, he came to Western Canada as a young man in 1918. He settled near Acadia Valley and farmed there for over 40 years. In the early days, he was a straight grain farmer but in later years, cattle received equal consideration. From 1923 - 1949, Mr. Frey served on the board of the Acadia Co-op. He also served on the board of the Alberta Federation of Agriculture and was president of the Co-operative Union of Alberta. In addition, Mr. Frey was a member of the Acadia School Board for nine years. At the present time, Mr. Frey is retired and living in Calgary.

George Sayle - 1963 - 1975
George Sayle, the eighth president of UFA, was born and educated at Ramsey on the Isle of Man. After arriving in Canada in 1928, Mr. Sayle worked on a farm in the Peace River area of Alberta, and in 1929 homesteaded at Westvale. Active in many community projects he was instrumental in building the first school in the community. He later sold the farm at Westvale and bought another at Sexsmith. Mr. Sayle organized and was president of the Bear Lake Rural Electrification Association. He was also president and secretary of the Twin Lakes Rural Telephone Association and a member of the Agricultural Fair Board of Grande Prairie.

For many years, Mr. Sayle was a delegate to United Farmers of Alberta. In 1947, he was elected a director and served on the board until 1963 when he was elected president. When Mr. Sayle took over as president, the locals, which had been an important and integral part of the UFA structure since 1918, were still in effect. In the early days, these locals were the cultural, educational and social hub of the rural community and from this base UFA built a strong farm organization, similar to today's Unifarm.

From 1918 to 1950 the locals had also served as the vehicle through which members combined their buying power to purchase carload quantities of coal, wood, apples, honey and flour. However, conditions had changed rapidly in the agricultural industry and in the rural community. Each year more and more members requested a direct account and suggested, for a variety of reasons, that they found dealing through the local awkward and inconvenient. The great increase in business put a heavy load on many local secretaries, who were active farmers themselves and found it time consuming to keep essential records. Many members did not receive a statement of their purchases from the local and there was a strong demand for statements to be sent each month directly to the members from head office.

Due to this increasing demand by members that farm supply business would be done more effectively on a direct basis, all administrative duties were transferred to the head office on August 1, 1966.

During Mr. Sayle's twelve year term of office, many sales records were broken and United Farmers of Alberta gained recognition as the major farm supply co-operative in Alberta. In 1974, earnings were over 5.5 million dollars and 3.7 million dollars were returned in cash that year to the members. There were now over 140 direct Petroleum Agencies and Member Associations and 19 modern Farm Supply Centers in Alberta. Membership was over 50,000.

In 1975, George Sayle retired to his farm at Sexsmith, Alberta. A man of great integrity and dedication, his astute guidance during UFA's years of dynamic growth, plus a personal warmth that endeared him to the many people he was associated with, earned him a special place in the history of United Farmers of Alberta Co-operative Limited.
Howard Haney - 1975

Elected president of United Farmers of Alberta in March, 1975, Howard Haney is a prominent rancher from the Picture Butte area.

His father homesteaded near Barrons in 1906, moved to Montana some years later, and then returned to Picture Butte in 1926. Irrigation had just started in Alberta and in 1927 it came into full flow.

Mr. Haney was raised on the family farm. He attended Iron Springs School and the Southern Alberta Institute of Technology.

His keen interest in co-operatives stems from the time he attended a Rural Leadership Techniques Course at Banff. He became actively involved as secretary of the Iron Springs local of the Farmers' Union of Alberta and then later as its president. In 1962, Mr. Haney was elected a delegate to United Farmers of Alberta and a Director in 1970. In 1972, he was elected 2nd Vice-president and in 1974, 1st Vice-president.

Mr. Haney has been active in many community and agricultural organizations. He served for a time on the Appeal Board of the Agricultural Development Corporation and is a past president of the Iron Springs Oil Co-op, a past director of the Alberta Sugar Beet Growers Association and of Co-op Insurance Services.

Barley and oats raised by Haney Farms have won numerous prizes. In 1960 the Haney family received a Master Farm Family Award from the Alberta Government.

Together with his brother Leonard, Mr. Haney owns and operates Haney Farms, a large ranch in Southern Alberta that has a feed lot and a cow-calf operation. In addition Haney Farms has a substantial farming operation that primarily raises pedigreed seed.

Mr. Haney is fully aware that a viable agricultural industry is of the utmost importance to the success of United Farmers of Alberta. He feels that by providing efficient and needed services to the agricultural industry and by maintaining a high calibre of personnel, UFA will continue its solid program of growth and expansion.

A larger percentage of the farm fuel business and new farm supply centers, where it is economically feasible, is what Mr. Haney envisages for the future. In particular, he feels that the Farmstead Development Department is supplying a very timely service for today's progressive farmer and this department will continue to rapidly expand.
John Onyschuk  
Radway  
1st Vice-president  

Elected a delegate to United Farmers of Alberta in 1964, and a director in 1970, John Onyschuk has proven himself to be a conscientious and astute executive.

Mr. Onyschuk farms in the Radway area, where he was raised and attended school. He has a mixed farm and his major business is beef cattle.

Keenly interested in agricultural and community organizations, Mr. Onyschuk served, for several years, as secretary and president of his local Farmers Union of Alberta. He is now a member of Unifarm, the Radway Agricultural Society and the Lions Club.

Mr. Onyschuk is a past president of the Radway Recreation Centre, on the executive of his church, on the board of the Thorhild Agricultural County, a director of the Thorhild A.L.C. buying station and a director of the Radway Seed Club.

He has acted on the county board of the Agricultural Development Committee and worked part-time for the Federal Government with the P.F.A.A. Mr. Onyschuk has also devoted considerable time to working with local 4-H clubs.

During the 1975 Annual Meeting, Mr. Onyschuk was elected 1st Vice-president of United Farmers of Alberta.

Mr. Onyschuk and his wife, Pearl, have five children, Peter, Bud, Don, David and Dianne.

Norman S. White  
Innisfail  
2nd Vice-president  

Mr. White was elected a delegate to United Farmers of Alberta in 1964. He proved himself to be conscientious and reliable in representing the Red Deer East area and in 1973 was elected to the board of directors. During the 1975 Annual Meeting, Mr. White was elected 2nd Vice-president.

Born and raised in the Innisfail area, Mr. White raises grain and beef on his farm, located in the Kneehill district. He served from 1964 - 1966 on the Agricultural Service Board and is a member of the Innisfail Agricultural Service Board and Innisfail Agricultural Society Committee. He is a past president of the Kneehill Farmers Union and is now a member of Unifarm. Mr. White is a member of United Grain Growers and has served as chairman of the local board. He is a member on the board of Co-op Implements, a member of the Innisfail Masonic Lodge and is a past master.

Mr. White is also a member of the Innisfail Co-op Association, the Alberta Wheat Pool, the Olds Elks Club and an elder of the Kneehill United Church.

Mr. White has been an active member of his community and agricultural organizations. For a hobby, he enjoys collecting artifacts.

He and his wife, Eunice, have two sons, Douglas and Robin, and a daughter Joanne.
Satisfaction Guaranteed or Money Refunded - at United Farmers of Alberta those are not just words on paper - we mean it!!

Before the Hutchinson Grain Auger was made available to our members, considerable research was done to find an auger and an auger system that would be reliable and efficient and complement the highly successful "Scoop-a-Second Grain Auger".

UFA's Farm Supply Division feels that the Hutchinson Grain Auger, which has won wide recognition as a high quality, useful product at a realistic price, will be well accepted.

Final negotiations for this line were completed in late spring by Jim Shindler, Farm Supply Division Manager, and John Dueck, Manager of the Special Services Department, at Hutchinson's 65 acre plant at Clay Center, Kansas.

Mr. Richard D. Fassler, Sales Manager for the Hutchinson Grain Distribution System, held workshop clinics with Farm Supply Division management and sales representatives at Special Services in Spruce Grove.

The many features of Hutchinson's grain augers and custom distributing systems were thoroughly covered. And in addition, an extensive slide presentation was followed by demonstrations of the equipment.

UFA's personnel are enthusiastic about the versatility and practicality of this high quality, useful product which features:

**Heavy Channel** - Supports the auger in all positions. Truss rods on units above 33'.

**Long-Life Drive** - Drive chain and hardened tooth sprockets with cover.
At the preview of the Hutchinson Grain Auger and Custom Distributing Systems.

Heavy-duty Flight - Heavy flight, \( \frac{3}{4}'' \) on the intake end with intake guard bearing, and hitch. Flight stretched and lapped at joints.

Drive Shaft and Bearings - Heavy Duty shaft with Precision Sealed, Self-Aligning Bearing.

Gear Box - High quality unit with gears running in oil.

Undercarriage - Each undercarriage designed for the length of the auger for balance.

Auger Housing - Heavy gauge galvanized on 6", 8", and 10" with painted housing on 12" augers.

Easy to Raise - Reduction winch with galvanized cable for long service.

Complete Line - 6", 8", 10", Augers up to 71' in length.
McLean Lumber Sales
Golf Tournament

"To have a good time" was the intention and that is exactly what was had by everyone involved in the McLean Lumber Sales Golf Tournament.

McLean Lumber Sales is a wholesale lumber firm that was started in 1960. The major items it handles are wood products, plywood, posts, and poles. Lumber is purchased throughout British Columbia, Alberta, and the Southwestern States.

The association with UFA started in 1960 and has been a responsible and amicable one throughout the years. Norm Gerlitz is the manager of McLean Lumber Sales and one of his first associations was with Jim Shindler, at that time, manager of the Edmonton Farm Supply Center and George Duffy, when he was manager of the Calgary Farm Supply Center.

All the Farm Supply Centers are called on by McLean Lumber people several times a year and personal contact is made with each of the managers. McLean Lumber is located at 5011 Mcleod Trail South, Calgary. On staff is Norm Gerlitz, Manager, and with the Purchasing and Sales Department is George Duffy, Bill Robson, Rory Coldwell, and Keith Camille, and of course capable Irene Paquette.

The fifteen year association of McLean Lumber with UFA has been an excellent business relationship and it has also been a congenial one. This year, McLean Lumber held a golf tournament to which UFA personnel were invited. The tournament was an outstanding success. It was held at the Balmoral Golf Course in Red Deer and arrangements were made so that the entire back nine was used for the tournament. Afterwards, a barbecue was held and prizes were awarded. According to Mr. Gerlitz, the tournament will be an annual event.

Although they didn't golf, moral support was given to the golfers by Inez Dahl, Stettler; Sharon Latam, Marilyn and Ed Evans, and Connie Camille of Calgary and Elsie Olofson of Camrose. Peggy and Gordon Wenzel, as did quite a few of the others, brought their families. Especially nice to meet Karen and Brenda Wenzel, two very nice and helpful young ladies.

Everyone who took part actively or as a spectator was a winner at the McLean Lumber Golf Day. The weather co-operated—the scenery was magnifi-
cent—the company was congenial—and Norman and Marie Gerlitz, George and Ann Duffy, and Keith and Connie Camille were tremendous hosts and cooks.

Taking home trophies and prizes were:

- Men’s Low Net - Jim Noble
- Men’s 2nd Low Net - Hank Dahl
- Women’s Low Net - Nora Spencer
- Women’s 2nd Low Net - Jean Bittorf
- Men’s High Net - Roland Coderre
- Women’s High Net - Anita Coderre
- and unofficially - a Congeniality Award to Anita Coderre - a great gal and fun to golf with.

Men’s Longest Drive - Don Benkie, Two Hills
Ladies’ Longest Drive - Ann Benkie, Two Hills

Something to do with the water hole (we never really clarified this award) but congratulations on winning to:

Marie Gerlitz, Calgary; Pat Stigings, Red Deer; Anita Coderre, Lethbridge; Wendy Bonderenko, Calgary.

Closest to the pin - Gary Sweet, Camrose; Ron Spencer, Stettler.

Man with the Most 8’s - Norman Gerlitz
Lady with the Most 8’s - Jean Bittorf

‘Golfing greats’ who played in the tournament but whom we didn’t get a picture of were:
- Craig Bissel, High Prairie; Bob Luft, Red Deer; Alice and Morris Switzer, Calgary; Willie Trefiak, Westlock; Norm Gerlitz, Calgary; Dave Latam, Calgary; Dan Olofson, Camrose; Ron Fernley, Red Deer; Jack McDonald, Calgary; Hank Dahl, Stettler; Wendy Bonderenko, Calgary; Ross Spencer, Stettler; Gary Sweet, Camrose; and Ann and Don Benkie, Two Hills.
Mrs. Joy Dykes, Supervisor, Credit Department, who joined UFA on July 2, 1970 recently received her Five Year Service Award.

Mrs. Dykes is on a well earned holiday in England and her picture was not available.
WHEN BYEMOOR CELEBRATES - IT REALLY HAS A CELEBRATION

In July of this year, a Golden Jubilee Celebration was held in the hamlet of Byemoor, located in east-central Alberta. Byemoor has a proud history and anyone who is interested in reading more about Byemoor and the surrounding area can do so in an excellent book entitled “Still God’s Country” which was recently published by the Byemoor History Committee, Box 146, Byemoor, Alberta, T0J 0L0. The book was edited by Marie J. Campbell who is also president of the Byemoor History Book Committee. Vice-president is Jean Mappin, Secretary is Eileen Green, Treasurer, Jean Lane, and President of the Senior Citizens’ Group is Helen Walker.

Ben Mohn, UFA agent at Byemoor, and his wife Beatrice, popularly known as ‘Pudge’, took a very active part in the Golden Jubilee celebration. Ben joined UFA in 1972. He has been involved in farming all his life and is a member of Unifarm, 4-H and the Alberta Wheat Pool. In addition to this, he belongs to the community Athletic Association and enjoys baseball, hockey and all sports. The Mohns have three sons and one daughter.

Byemoor is officially listed as having a population of 60, however, when Ben and Pudge Mohn had a barbecue for their many friends and associates in honor of Byemoor’s Golden Jubilee celebration, they served approximately 1,100 people. Ably assisting the Mohns in serving the hamburgers were Ron Schierkogel, Information Service Division and Jim Holman, Petroleum Marketing Supervisor. In the evening, with the compliments of United Farmers of Alberta, everyone enjoyed a Walt Disney show.

Prior to the barbecue, registrations were held for the Jubilee Celebration on Friday afternoon with free coffee and doughnuts being served. After the barbecue and the show, a dance was held.

On Saturday there was a free pancake breakfast and at 11:00 a.m. there was a successful parade. The Mohns’ entry was a
decorative buggy pulled by Shetland power. The official opening commenced at 2:00 p.m. with Lieutenant Governor Steinhouer and Mr. Graham Harle, MLA for Stettler, in attendance. There were numerous booths on the grounds and also handicrafts, displays, antique and pottery sales and demonstrations.

There was a beer garden on the grounds, a roast beef barbecue from 4:00 p.m. to 7:00 p.m. and a dance at night. Sunday, Byemoor was still celebrating their Golden Jubilee. At 11:00 a.m. an open air church service was held and later on in the afternoon there were numerous ball games and horse shoe competitions.

Congratulations to Byemoor and to Ben and Pudge Mohn for an active participation in their community.
For some time Agents in Petroleum Territory #3 have talked about what a good idea it would be to get together and have a family picnic. Jim Holman, Marketing Supervisor of this territory, not only heartily concurred with the suggestions but made it happen.

On the evening of July 12, several UFA agents started arriving at Fox Lake which is 3 miles north of Hanna. They came in tents, trailers and campers. In attendances were Leon and Ruby Gall, Cereal; Jack and Arlene Crawford, Forestburg; Jack and Marge Bateman, Alliance; Herb and Laura Kary, Coronation; Jim and Jeannie Kirby, Delia; Bill and Madge Dalton, Esther; Harold and Zelda Schnieder, Empress; Harry and Eileen Gwinner, Rumsey; Ben and ‘Pudge’ Mohn, Byemoor; Wes and Marion Nelson, (Wes is with Petroleum Accounting in Calgary) and the genial hosts Jim and Marion Holman.

Jim recently wrote in to tell us about the great couple of days they had. “After the Agents and their families had set up camp, they returned to my place for a small barbecue of cheeseburgers, potato salad, baked beans (thanks to Laura Kary) and cold refreshments. Later that evening we all returned to the lake where the kids went swimming and the adults were delightfully entertained by Irene Gwinner with an organ and Jeannie Kirby with her violin. The vocal support was supplied by the rest. At about 12:00p.m., a set of headlites shone towards the camp site. Was it a raid? No, Leon and Ruby Gall had arrived from Cereal.

Somehow or other Sunday morning arrived very early the next day. The Hanna Golf and Country Club supplied us with a very nice breakfast of eggs, flapjacks, bacon and coffee. Then the great golf tournament began. After losing 1,623 golf balls, the golf tournament ended with trophies for Jim Kirby, Jack Crawford, and the booby prize went to Jack Bateman. Jeannie Kirby was awarded a camping thermos for her participation.

While some of us were losing all those golf balls, the non-golfers returned to the lake and prepared for the horse shoe competition. Thanks to the great organizational efforts of Herb Kary and Harry Gwinner, it was also a success. Trophies were presented to the team of Leon Gall and Jim Kirby. The lady’s trophy went to Laura Kary who defeated Madge Dalton in the final play down match.

Zelda Schnieder and Laura Kary baked two beautiful birthday cakes in honor of Bill Martin and Irene Gwinner.

The afternoon came to a close with a pot luck barbecue and I would say, that without a doubt, Ben Mohn of Byemoor had the biggest steak a city boy has ever seen. Believe it or not, it almost covered the complete top of the largest barbecue there was. It was so big we were waiting for it to get up and walk away. Everyone had a great time and plans for next year’s get-together are already under way.”

Reports on the tremendous time that was had by all at the Petroleum Territory #3 Family Picnic, were also received from Wes Nelson of Petroleum Accounting. Wes said it was one of the best times he has ever had and on behalf of everyone there extends his sincere thanks to Jim and Marion Holman for their wonderful hospitality.
Progressive Farming Days started at Olds College ten years ago as a joint effort of Alberta Agriculture, Olds College, and the agricultural industry. It was held at Olds College for three years and then moved to other areas in the province. Shows have been held at Fairview, Grande Prairie, Camrose, Vermilion, Lethbridge, and again at Olds in 1971.

As the shows were always in February and March, they were restricted mostly inside exhibits. This did not give prospective buyers of special equipment a chance to obtain full information on the product. It became obvious that an outside-inside show was needed during the summer months so the farming public could view various machines in operation in the field.

There were three sections to the show. In addition to forage machinery, silage equipment, loose haying equipment, and baled haying equipment, the farm section featured silos, feed handling systems, feed loaders and unloaders, all types of stock feeders, stock waterers, field and garden tractors, tillage, seeding and harvesting equipment, field sprayers and many other types of machinery.

The second section concentrated on livestock handling equipment. UFA demonstrated their well known W.W. Cattle Equipment. Viewers were able to see gates, fencing, chutes, loading docks, scales, squeezes, as well as numerous small items associated with livestock management.

The third section was called outdoor living. The displays here featured the latest patio furniture, lighting and barbecuing equipment, outdoor swimming pools, indoor-outdoor carpeting, summer cookery, food safety, boats and boating equipment. There was also a country vacations display and a selection of shrubs, designed for farmstead planting.
